Advance Notice of Publication

OMB's Office of Information and Regulatory Affairs will publish the third annual long-range planning report titled "A Five Year Plan for Meeting the Automatic Data Processing and Telecommunications Needs of the Federal Government". The Plan, which is being developed by the Office of Management and Budget in consultation with the General Services Administration and the Department of Commerce, is being prepared to meet the requirements of the Paperwork Reduction Act of 1980.

The Plan contains information regarding recent developments and trends of interest to Federal managers in the fields of information technology and telecommunications. It also provides an inventory of major Federal information systems and a detailed description of eight major Federal information systems.

Agencies may place orders for the Plan with the Government Printing Office by May 24, 1985. Riders should cite OMB jacket number 475-828 when ordering on Standard Form 1.
